

My favourite animals

My favourite animals are giraffes.

They live in southern Africa.

They ^{have} live long legs.

They can stand on four legs.

They eat grass.

They ^{are} live yellow.

The dogs

A dog is best friend people. The dogs don't like cats. I like dogs because they are nice and friendly. I have a dog at grandma. His name is Baddy. He is small white and very good dog. He has long tail, small eyes, short feets and big ears. I like him.

Baddy

My favourite animals

My favourite animals are monkey. They are climb the tree. They are brown. Eating a banana. They can long jump. Are small. They live in a Africa.

Dogs

Dogs is my favourite animals because, are very cute. They are best friends people. I want dogs. Dogs are divers....I have got a dog at grandmother. His name is Benny.

Dolphins

My favorite animals are dolphins, because they are very cute. Dolphins are blue with black eyes and white belly. They live in oceans. They've got tail and big mouth. They eat fishes. They can swim.

My favorite pet
is a dog Michal

My favorite pet is a dog Michal. It is very, very happy and very friendly. It and I go to the park. We live in small town and is brown. Michal has a very good bed.

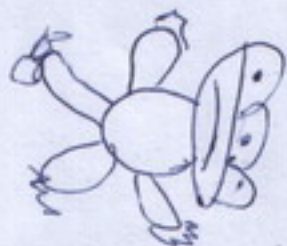

My name is Rocky.

I eating bowls.

I sleeping at home.

I'm friendly.

I'm bear.

Dolphins

I'm interested in dolphins because they are amazing animals. The dolphins live in groups. They help each other with hunting. This friendly co-operation is necessary for their life.

They use various sound for communication. The dolphins eat fishes. Though they live in the sea, they are mammals. The dolphins can also help people. There are various therapies with dolphins.

The therapies includes swimming with dolphin in a swimming pool which helps to treat some mental or physical diseases.

The therapies usually take place in sea parks and dolphinariums. They are also very playful. And that's why I really like the dolphins.

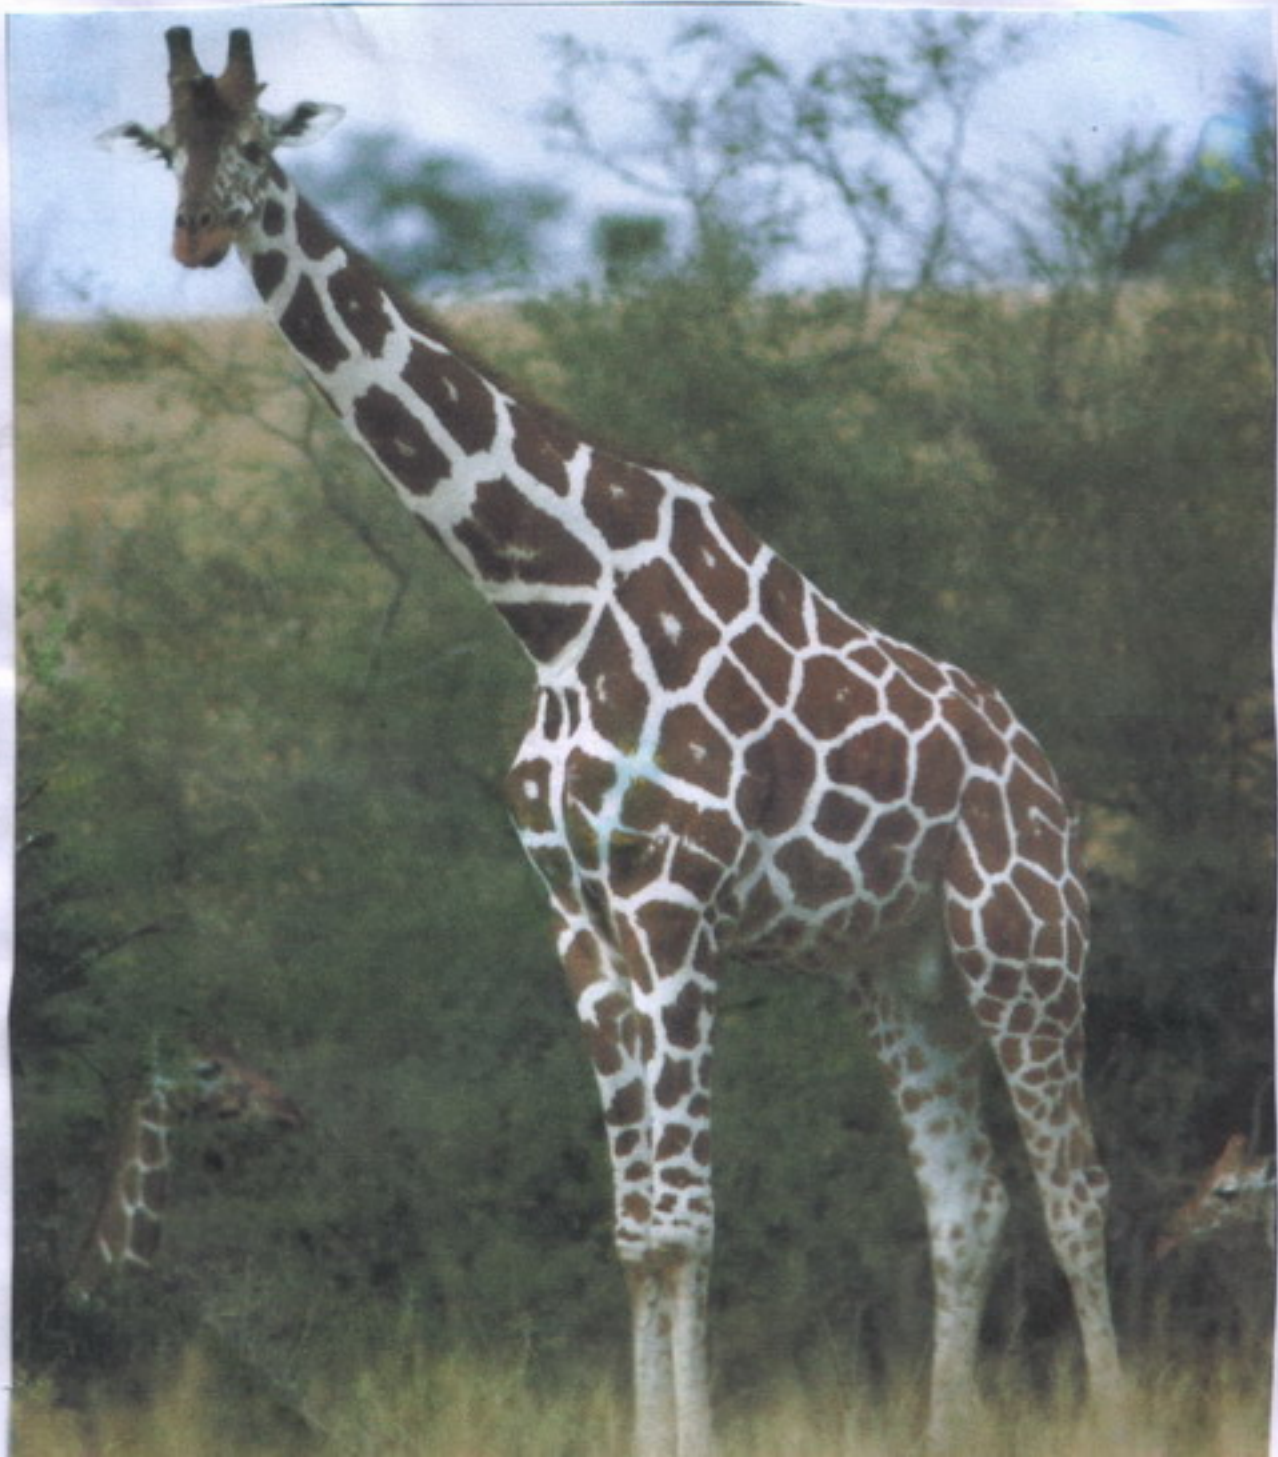

Giraffes

My favorite animals are giraffes. They lives in Africa.

Giraffes are orange and brown. Giraffes are very big.

Have a four legs and very big neck. They eat leafs and grass.

Tigers

My favourite animals are tigers. They are live on Africa, Asia,..... Tigers are orange black and white black. They have big teeth. They eat snakes, rabbits... Tigers are mammals. Tigers have four legs. Tigers can swim and jumping. Tigers are hunters.

Giraffe

I am interested in giraffe. They live in Africa south from Sahara. Giraffes are 3,8 - 4,7 m tall. Their tail can be 80-100 cm long. They have (far) fair felle with brown spots. Giraffes live in small groups. They can live about twenty-five years. Female's weight is 550-1180 kg a male's weight is 800-1900 kg. Their favorite food are leaves and leaves from acacia. For giraffes are wild cats big enemy. Giraffes don't live in Slovakia, so I can see them only in zoo. I go to the zoo always when I can.

Two Giraffes

PROJECT 2

My favourite animals ~~are~~ is bear. They live in ~~Antarctica~~ antarctyda. Bears are white. They're quite big - about the ~~is~~ same size as ~~the~~ fish. There are between six and forty bears.

They eat fish...
That's because some other animals like to eat bears.
